Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A method for extracting additional information from ~~an image~~ a visual pictorial representation of an actual object, the method comprising the steps of:

(a) obtaining a wire mesh and a texture model;

(b) providing instructions for directing the wire mesh which in combination with the wire mesh and texture model forms an animated object; and

(c) audibilizing information that further defines characteristics contained within the ~~image or content~~ visual pictorial representation of an actual object by directing the animated object to deliver the information.

2. (Original) The method as in claim 1 further comprising a database containing information which provides the audibilized information.

3. (Currently amended) The method as in claim 1, wherein the animated object is either in the foreground or superimposed on the ~~image~~ pictorial representation.

4. (Currently amended) The method as in claim 1, wherein step (c) includes selecting ~~an object~~ a symbol in the ~~image~~ pictorial representation which symbol does not include any language for initializing the audibilization.
